

Control Rooms Replacement

BMA needed to replace and upgrade its pipeline control rooms at nine sites in the Bowen Basin.

Hawkins Group handled all aspects of the project including decommissioning and removing the old buildings before replacing with new ones. This also involved council approvals, design, plumbing, data and electrical installations.

Client:

The BHP Billiton
Mitsubishi Alliance (BMA)

Location:

9 sites in Central
Queensland

Project value:

\$1 million

Contract type:

Lump sum

Completed:

2012
