

Poitrel Mine Warehouse

Hawkins Group fabricated, constructed and fitted out this 90 m² warehouse.

We worked closely with both the client and the designer, Sinclair Knight Merz (SKM), to ensure best outcomes and incident-free safety. The building included comprehensive racking, internal air extraction system and internal office space. We also supplied our own on-site accommodation for 12 workers during the project as other accommodation was full.

Client:

BHP Billiton – BMC
Poitrel Mine

Location:

Poitrel Mine, Central
Queensland

Project value:

\$3.3 million

Contract type:

Lump sum

Completed:

2012
