

QGC Infrastructure

Hawkins Group constructed buildings at four separate locations across a wide area of the Darling Downs on sites designed to accommodate up to 700 people.

The scope included offices, toilets, kitchens, meeting rooms, and lunch rooms. As well as installing the client-supplied buildings, we supplied and installed decks, roofs, electrical and plumbing. As always, we were concerned to minimise our footprint and leave the client with a result 100% ready for deployment.

Client:

Onsite Rentals

Location:

4 sites in Darling Downs

Project value:

\$800,000

Contract type:

Install/supply and install

Completed:

2013
